Summary

Computer Science Engineering undergraduate (B.Tech, 2023–2027) seeking a **AI/ML** or **Python Development Intern** role. Proficient in **Python**, with hands-on experience building backend functionality, **REST APIs**, and database-driven applications using **MongoDB, MySQL, and SQL**. Experienced with **Git/GitHub**, **Pandas** and **NumPy** for data analysis, and object-oriented programming. Built 3+ full-stack applications with strong problem-solving, debugging, and teamwork skills.

Projects

- **SpamShield – SMS & Email Spam Classifier | Python, scikit-learn, NLTK, Streamlit**
  - Built a **Python NLP pipeline** with **NLTK (tokenization, stopword removal, Porter stemming)** to preprocess SMS and email text
  - Trained a **StackingClassifier** ensemble **(SVC, Naive Bayes, ExtraTrees)**, achieving **~97.7% accuracy and ~92.5% precision**
  - Developed an interactive **Streamlit** web app that classifies messages as spam or ham and shows message statistics
  - Saved the trained model and vectorizer for fast predictions; documented setup and usage in the README
- **Job Application Tracker – Job & Internship Application Management Platform**
  - Developed a job application tracker using **Python, Flask, SQLite, HTML, CSS, and JavaScript**
  - Built REST APIs for **CRUD operations, filtering, validation, and statistics**
  - Implemented **search, sorting, status tracking, and dashboard analytics**
  - Created **Pandas-based weekly reports** and automated CSV generation
  - Built Calculated **response rates and status-wise application statistics**
  - Added **12 unit tests** and parameterized SQL queries for reliability and security
- **Loknath Art Centre – E-commerce Website for art material and Drawing Courses**
  - Developed a full-stack e-commerce platform using **Next.js, React, Node.js, Express, and MongoDB**
  - Designed REST APIs for product, user, and order management
  - Implemented authentication and secure checkout functionality
  - Integrated UPI QR payment system
  - Built responsive UI supporting desktop and mobile devices

Technical Skills

- **Programming Languages :** Python, C, C++, JavaScript, TypeScript
- **Data Science & Machine Learning:** NumPy, Pandas, Matplotlib, Seaborn, scikit-learn, Data Cleaning, EDA
- **Frontend :** HTML5, CSS3, React.js, Next.js, Tailwind CSS, Responsive Web Design
- **Backend:** Node.js, REST APIs
- **Database :** MongoDB, MySQL, SQL
- **Tools :** Git, GitHub, VS Code, Postman

Education

B. Tech in Computer Science & Engineering	(CGPA: 7.56/10 upto 6th sem)	2023-2027
12th (WBCHSE)		84.6%
10th (WBBSE)		90.71%

Languages

English, Bengali, Hindi

Achievements

- Completed Cisco Networking Academy – Introduction to Data Science
- Built 3+ full-stack and python based web applications
- Active learner of Artificial Intelligence & Machine learning
